August 2019

Premier Club Members,

It seems like the miserable, hot weather is behind us! It's nice to be able to enjoy the cooler mornings. I'm sure we will have more warmer temperatures ahead of us though. It always seems to happen when school starts which is just around the corner.

I know not many of you shop for school supplies but if you do - maybe buy a little extra. There is always a need in schools for those who can't afford the needed items. St. John's Lutheran Church is accepting those supplies. Just bring them to the meeting and we will make sure they get in the right hands.

I want to thank Deann Zens for speaking at our July meeting. It was very interesting to hear her speak about the Honor/Freedom Flight to Washington, DC. What a wonderful event she was able to participate in.

Our August meeting will be on August 8 at 9:30 in St. John's fellowship hall. Our speaker will be Dr. Jenny Furstenau. She is an optometrist with Authier, Miller & Pape in Norfolk, NE. She has been in this profession for over 13 years. She will talk about the importance of eye care and some of the new advances that have been made in this area.

The Premier Club is going to Nebraska City! The date is Wednesday, October 16. We will leave from Bennington at 7:45 and return around 5:30. Please see the following for detailed information. It will be a full day! There will be plenty of walking. Most of the places that we plan to visit will have self-guided tours. Be sure to ask your friends to go also. You do not have to be a Premier Club member to participate. Please mark your calendars to attend!

School will be in session soon. Be sure to watch out for extra foot and vehicle traffic!

We will plan to see you August 8.

Dee Clark
